Median Salary by Job Location

Based on job roles with 50+ salary-disclosed postings

Job Role

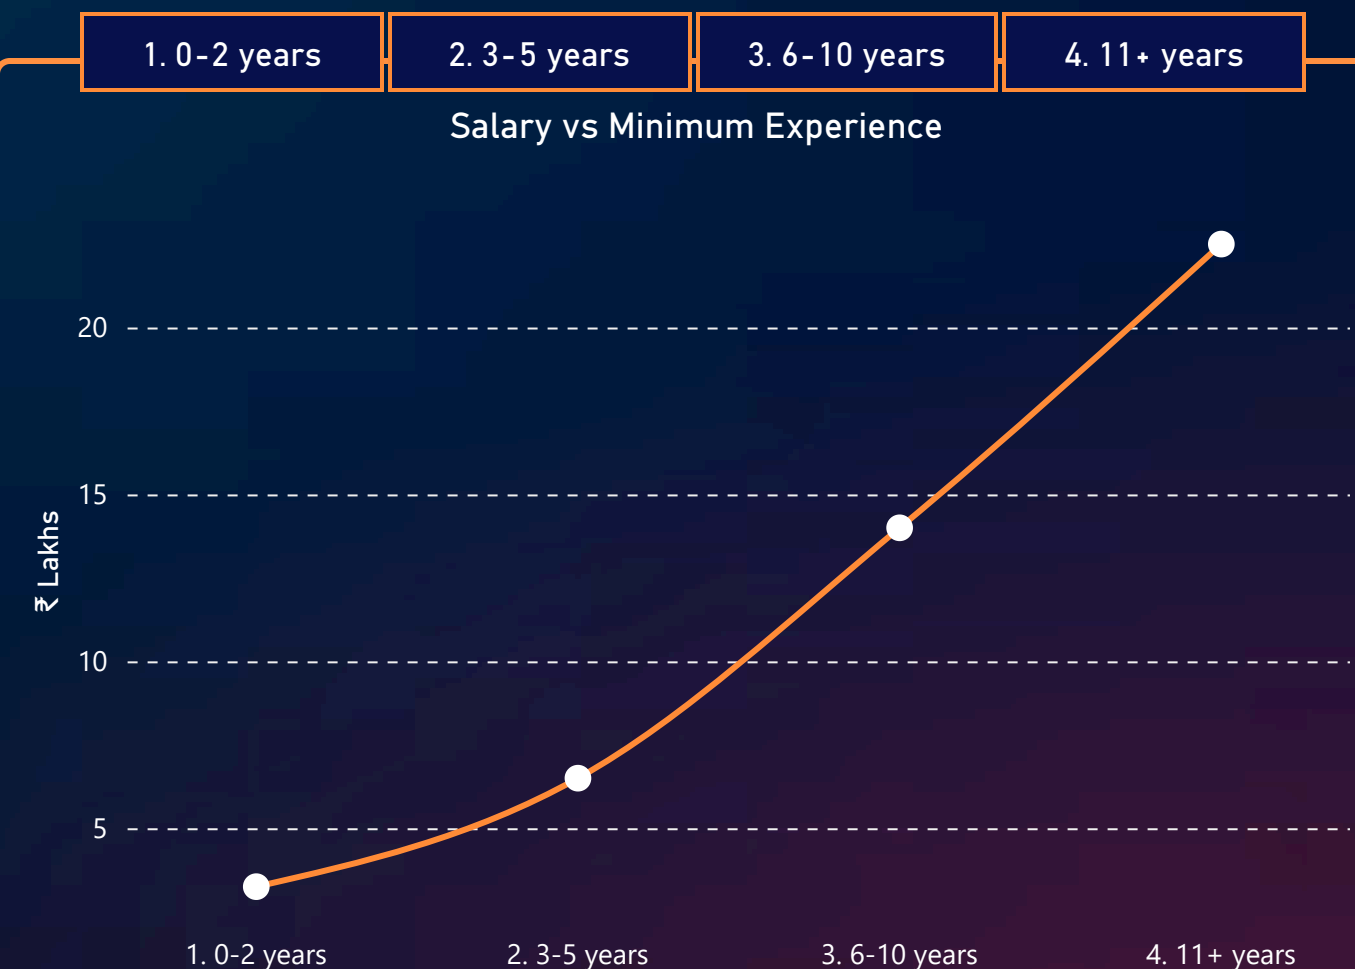

All

KEY INSIGHTS

- Role beats location: pay varies ~6.5x across roles, but only ~1.4x across cities.
- Top-paying roles hide pay: only ~12-13% of AI/ML and Cybersecurity postings disclose salary, versus ~76% for Customer Service.
- Experience pays: median salary rises ~3.5x from 3-5 to 11+ years.
- Entry-heavy demand: ~75% of postings ask for 0-5 years of experience.

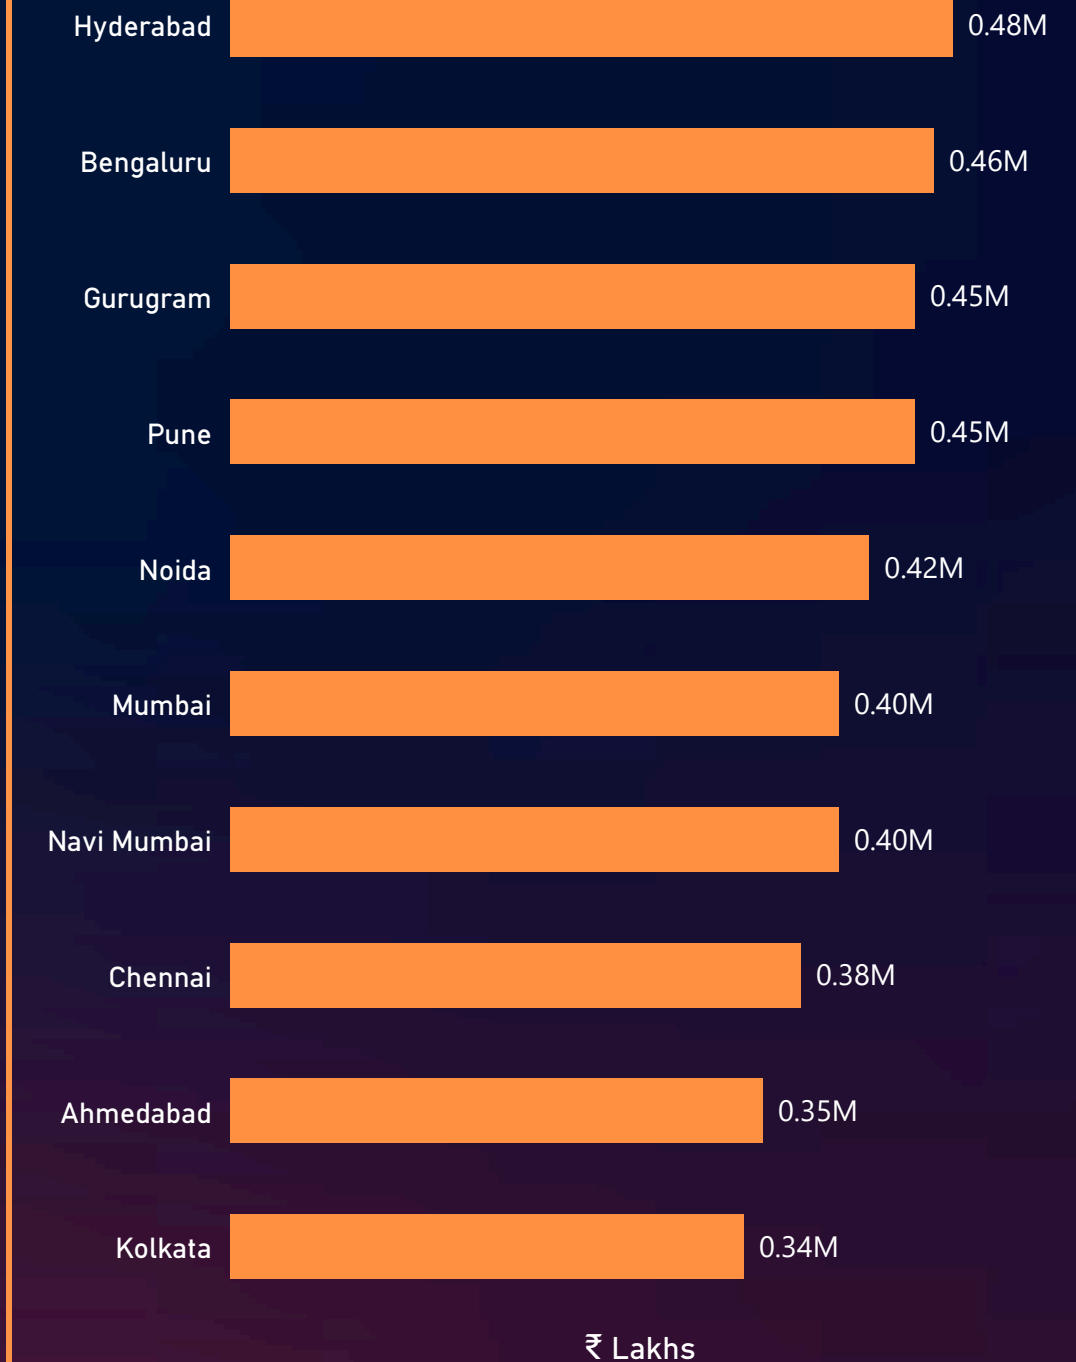

Salary figures are based on the 33.9% of postings that disclose pay.

Top 15 Hiring Companies

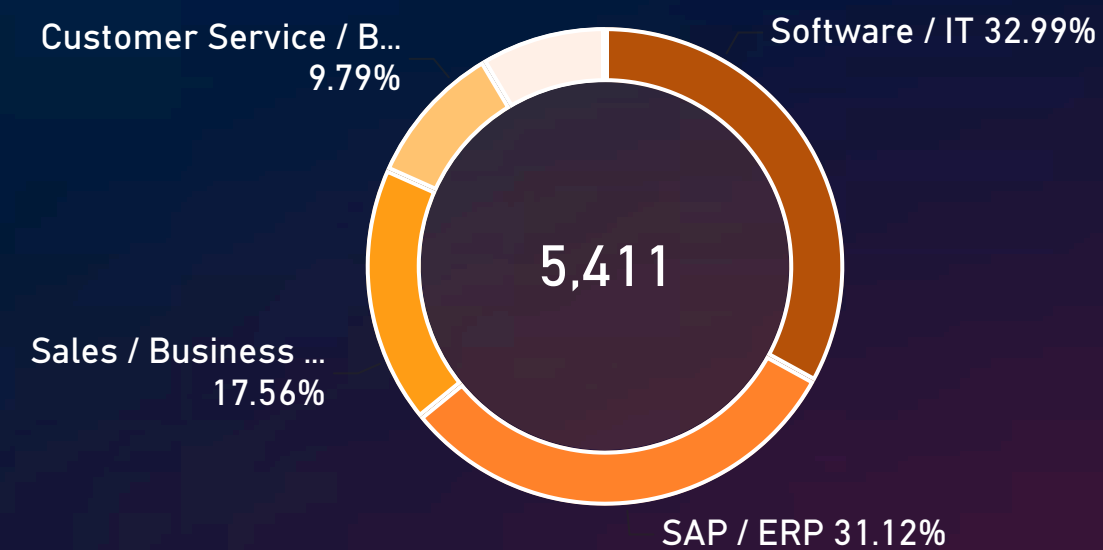

● Direct Employer ● Staffing / Recruitment

KEY INSIGHTS

- **Fragmented employer base:** ~57% of hiring companies posted only a single job.
- **Concentrated demand:** the 10 largest employers account for 18.3% of all postings.
- **Significant intermediary presence:** staffing and recruitment firms account for ~13% of postings, and 8 of the top 15 hirers by volume are agencies.
- **Specialist hiring:** SAP / ERP is nearly as large as Software / IT among staffing firms' classified roles (~31% vs ~33%).
